

DATASHEET

Sage 300 2020

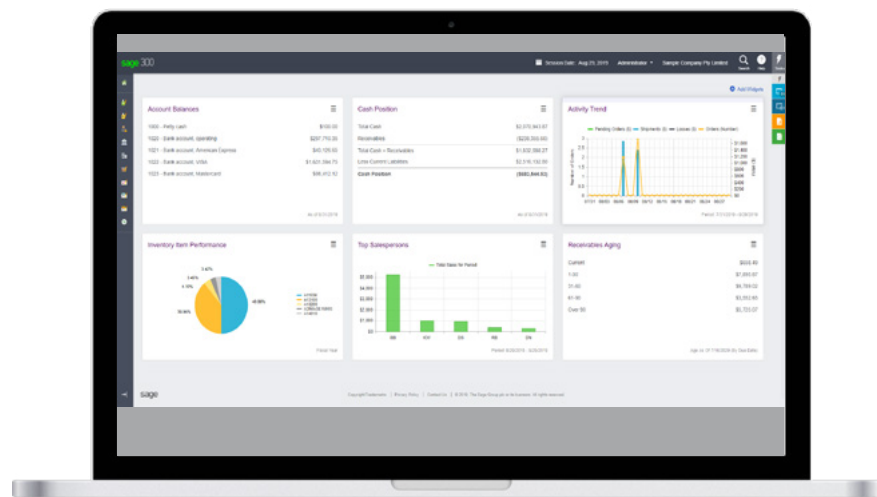

Work seamlessly with a single shared set of company data.

What's new with Sage 300 2020

Sage 300 2020 makes it easy for you to focus on running your business with increased efficiency and meeting the evolving expectations of today's business world.

The latest version offers enhanced user experience through improved web screens, including online help and Sage CRM enhancements.

Improved user experience

The enhanced web screens allow you to seamlessly switch between financial, operational, and administrative tasks for multiple companies within a single browser, resulting in increased efficiency.

Online Help

Sage 300 2020 provides new ways to access help information from anywhere, including a new search engine to get you answers quickly.

Quicker access to Sage 300 information from integrated Sage CRM

With the enhanced integrated Sage CRM, transactions created in Order Entry of Sage 300 and linked to a Sage CRM opportunity will now have a corresponding communication record automatically created in Sage CRM. This newly created record allows users to access Order Entry Inquiry web screen within Sage CRM.

Special characters

With the addition of special characters to web screens, doing business in multiple countries is much simpler than before. Sage 300cloud web screens now support Unicode characters for Chinese, French and Spanish languages.
